

**SAID AHMAD IN SECONDARY SCHOOLS CREATIVITY  
MODERN METHODS OF TEACHING**

**Djaksilikova Aygerim**

Nukus State Pedagogical Institute, Faculty of Turkish Languages, Kazakh language and literature,  
2nd year student

" To a person special features directly psyche with depends that it was for today too spiritual education issue country scale important to the task turned . Spirituality bring up while at school , mainly literary education system undertake will be loaded ".<sup>1</sup> So it is literature science from his teacher big skill and knowledge Demand will be done . Current in the day general education in their schools literature science teaching current from issues to one became XXI century technologies It's not for nothing that it's a century it is not said . This period education in the field information technologies , interactive of the methods fruitful to use requirement is enough That's it Therefore , we are general education of schools 8th grade literature of Said Ahmed in his textbook " Horizon " from the novel received the piece in teaching efficient has been methods cause we want to pass .

This is it topic for 3 hours at DTS separated being , this the clock which distributes if so , in the 1st hour of the writer life and creativity about " Runaway " from " Ufq " novel in the 2nd and 3rd hours part about word is conducted . Here we are from these 3 hours for the last 3 hours efficient has been methods cause we want to pass .

So , the first our method " Circle table " is called This is the method home task from asking before of students to class ready or ready that it is not determination for is used . The method perform for 3 minutes time enough will be Fulfillment as follows :

- students to the group split , circle in the form of sitting down get ( in class student from number come out );

- a teacher by each one to the group one sheet white paper giving will be released ;

- this one on paper in the group how many person if so , that's all topic about from one information to write need will be and each who himself wrote information At the end of bracket inside also mention his name passes .

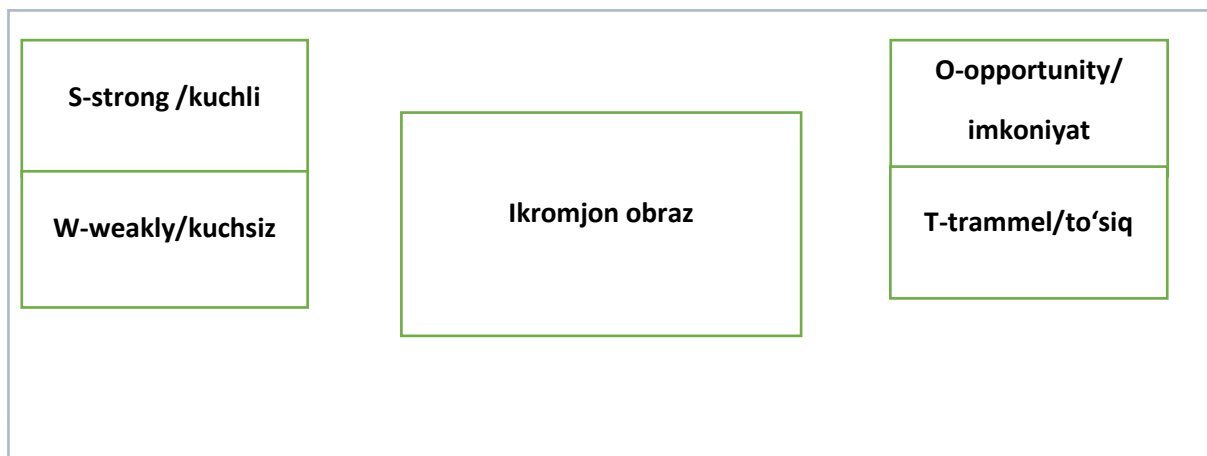

- information did not write student of the table to the middle the pen put puts

Here it is that's it way of students to class ready or ready that it is not quickly identify get can This is the method too much time saves .

---

<sup>1</sup>Husanboyeva Q, Niyozmetova R. " Literature teaching methodology " Tashkent "Innovation-Ziya" 2020

Now and the house task in asking SWOT analysis from the method we use Here , **S** - strong , **W** - weakly , **O** - opportunity , **T** - trammel said meanings gives. This the method is also a lesson in the process students independent and logically thought to conduct encourages . Method as follows done is increased .

Of this for first above in appearance table we will prepare and him paper in the form of to the students we give In class students two from a person consists of to groups will be separated. Pupils lesson in the process next to partner with together the assignment they do . In this each one to the couple " Horizon " of the novel in the textbook in the part given from the heroes from one is given and them four quality with describe is asked . That is , above in the table four the rectangle fillings must will be

- the first in the table given of the hero *strong* aspect ;
- second in the table *weak* aspect ;
- the third in the table *opportunities* ;
- the fourth in the table while *obstacles* showing to give must will be

For example , *Ikramjon image* will receive if so , him four bias analysis we do :

- strong Side : Icrojan's strong side is that he each how himself in the situation administration takes One leg no to be regardless from action does not stop ;
- weak side : own to the dead against never how remedy not being seen ;
- opportunity : his patient , enduring and proud the fact that
- obstacle : Tursunboy's from the war escape and this through his face shuvut to be

of this method efficient side that is , the student work with only by introducing without staying , him work heroes life about encourages thinking . Professor Kazakhboy Yoldoshev as they noted , " ... literature to history concerned something proof sparkling telling give but in spirituality good virtue didn't happen from the student according to ,... artistic of the work to the heroes special human qualities own nature absorbed , from the surface rather inactive seemingly students our society for more is necessary ". Indeed , we are literature in their classes here it is so good thoughtful , har how to the situation own comments tell will receive young people our upbringing it is necessary That 's exactly why for , first of all , to the student artistic the work right interpretation in doing closely helper to be needed In this to us interactive methods helper it will be , of course .

Summary by doing in other words , a lesson in the process modern interactive of methods own in place use to know of students the subject deep in mastering known in a sense his own efficient the result will give .
