**Introduction**

With the intensity of globalization and informatization processes today the intensification is taking its toll on the development of National Tourism. Hence for the search for conceptual factors in the development of national tourism in the current period, its study of the laws of development, future prospects for the development of Tourism marking is gaining importance. Modern tourism in Uzbekistan now much attention is paid to the issue of infrastructure development. Our president SH.M.As Mirziyoev noted: "Tourism to the strategic sector of the economy remains a priority for us". Then in Uzbekistan the rapid development of the tourism sector has been of both economic and social importance it is considered one of the important strategic tasks.[1] tourism in Uzbekistan in this regard PF-5781 of August 13, 2019 in order to rapidly develop its industry "Measures for the further development of the tourism sector in the Republic of Uzbekistan on", PF-6165 of 9 February 2021, " internal and decisions on measures for the further development of pilgrimage tourism made. First of all, an important factor in the development of the tourism industry is this wide involvement of investments in the industry.[2]

**LITERATURE ANALYSIS AND RESEARCH METHODOLOGY**

Today it is necessary for the development of domestic and foreign tourism in Uzbekistan a lot of attention was paid to the issue of the formation of infrastructure and 20 in our Republic more than tourist destinations attract foreign tourists. Uzbekistan received 1,300,000 in 2016 and nearly 2,700,000 in 2017, 5,346,200 people in 2018, 6,748,500 in 2019 consisting of tourists come and number them to 7.5 million in 2020 and 10 million in 2023 it was intended to convey to the person. In this regard, the national tourism infrastructure in Uzbekistan deliver all infrastructure facilities to the level of World templates in development, components of tourism infrastructure, hotel, transport, food, recreation high level of Organization of reception, treatment and other entertainment services much attention is paid to the issue. Now from the tourism resources in our country the role and contribution of transport infrastructure in effective use is high, "Uzbekistan highways to the development of national tourism in Uzbekistan, National airlines of Uzbekistan, Uzbekistan Railways the likes of the Public Joint Stock railway company have been greatly affected.As well as hotel services in the development of national tourism in Uzbekistan development is also considered important.[3]

As you know, when organizing a hotel business, there are several requirements, namely employee training, education, qualifications, age, health, knowledge of foreign languages and

importance is also attached to the appearance. Today some in Uzbekistan the feeding facilities used a high level of Service while operating in the case, the level of service of some is in demand does not give. They are required to further elevate the culture of Service. Bank and other financial organizations in the development of national tourism in Uzbekistan also plays an important role. Tourists are diverse Financial in travel and Recreation they use types of services. How much is the tourist service system if improved, it will be possible to directly contribute to the further development of tourism in the future. shows the effect. Information Service in the development of national tourism in Uzbekistan also important, coming to Uzbekistan for the purpose of travel about the place where tourists go, the laws and customs of the territory on which they go and to information about ceremonies, holidays, hospitality of the place map, feels extirpated to the scheme of Transport Highways. Therefore, the current tourism infrastructure in the period is also directly related to modern computer service here is a quick information and eloquence, News awareness of the current era an important requirement of Tourism.[4] Architecture in Uzbekistan many of the monuments have been renovated due to independence, and many of these monuments date from the 12th-20th centuries. Modern electronic means, in internet networks millions where information about various tourist services, tourist centers is located there are sites where tourists choose travel and travel agencies via the internet, tour travel tickets, the possibility of prepayment of fees for services will have. Uzbekistan has a rich history and culture of Tourism it has high potential for development and is located on the territory of Uzbekistan A unique example of the universal heritage of about 4000 material and spiritual monuments it is included in the Unesco list as.

Together with Among the architectural monuments in Uzbekistan are those that date back to the 4th-9th centuries it is found. Even older cultural monuments are preserved on the territory of Uzbekistan the rest of the world will further increase the interest of tourists to Uzbekistan. Many historical monuments belonging to the primitive and ancient period in Uzbekistan existed, and today it is from historical monuments as a tourist object many works are being carried out aimed at use.[5]

### **Conclusion**

In conclusion, a huge impact on the development of national tourism in Uzbekistan historical and architectural monuments on the territory of our country showing not only material as a monument of culture, but also together with science, culture, progress also as the cradle of knowledge, where great thinkers grew up attracts foreign tourists. This is what Uzbekistan today has huge opportunities even for the active development of pilgrimage tourism is creating.
