

**DISCUSSION IN HIS SPEECH WORD CATEGORIES**

**A. Dadajonov**

linguistics department teacher FarDU

**Abstract:** The article describes discussion speech and its characteristics. The opinion of linguists in this regard has been summarized, and on the basis of these theoretical views, characteristic features of discussion speech have been determined.

**Key words:** Monologic speech, type of speech, image, narrative, discussion, thinking, language, speaker's intention, thought process, speech process, causality, structural unit of thinking, logical unit, judgment, conclusion.

The discussion expresses the point of view of the author or characters, determines the cause-effect relationship of events or events, justification, proof or rejection of any opinion. Often, the reasoning ends with a conclusion.

In our work, which is called the morphological features of discussion speech, we try to clarify which word groups are active in the examples of the discussion text, which words are used more often, and similar questions through examples.

- The heart needs to be cherished and honored... The heart loves to be honored....
- Understandable , professor... Now to say goodbye permission eat ... - Bachana instead of stood up
- Goodbye , Bachana ! Our hospital back Please do n't look at me never when your work do not fall ! Treatment in the sense of course ! - adding put the professor.
- Finally satisfaction with out I'm leaving ... These two months, Nodar Grigorievich , for me whole never mind equal !
- I do not understand ...
- Every how man in his lifetime local one times heavy though \_ the pain from the beginning to pass need \_ This thing to him pressing past \_ for life calm down look to throw possibility will give . In this sense hospital to me incomparable help showed \_ \_
- I think it 's yours life your way inspection to do and again to evaluate necessity no .
- Do you think so ? - he smiles Bachana .
- Every without , from abroad compared to so it seems
- In your hospital past \_ two months for me great discoveries circuit it has been !
- Well , what ? discover did you
- Eternity the law !
- Hm , then this of the law even if there is a formula must , yes isn't it ?
- Of course !
- Maybe you will also introduce me with that formula ? \_ Mind you full let it be This is your day my own by doing I can't , the professor joked .

- This is the law essence from that is that of a person his from the body face equal to heavier ... At this level it 's hard one person raise \_ can't ... Therefore , we, people , can alive to each other help to give , to each other to our hearts help to be movement what we do need you - to me , I - to him , and he - another to one , thus continuous continue reach must ... until death from life us loneliness to his misfortune receiver by doing don't let ...

( Nodar Dumbadze . " Eternity law ")

This in the passage 173 words in total participated . From this the horse the word to the series 51 members (29 %), verb word in the series words 55 (32%), pronouns in the series words 34 (20%), quality to the series 10 (6%) belong to the ravish group , 5 (3%) in the hip group belongs to words 5 (3%) assistants words and 13 (7% ) organize is doing

This fragment to the world famous , very a lot to his student have has been Eternity the law from his work received is Bachano \_ and between the professor communication reflection delivered . In the passage discussion to the speech related from details fruitful used . Cause , effect , discussion , discussion and final conclusions . Now we are rivet to the topic suitable if so , this one in speech of discussion morphological features there is . For example , independent the word to the series belongs to all words : noun , (professor, hospital , person , heart , life ...) verb , ( complex verbs - geriftor by doing don't let it ; helpful verb word addition - raise can't , adding put \_ basically verb participles ), pronouns (I, you , he, we, all , each what ;) number ( two , one ;) from fruitful used . From this except helper from the words , especially modal ( certainly , undoubtedly ;) , exclamatory ( bye , hm ;) ) connective ( and , maybe ;) words are also used

Modal words in discussion ( logical contact tool as ) discussion participants in the texts preferential relationships reflection which makes another to semantics have to be can \_ ( For example , undoubtedly , of course , and etc. ) This or another the idea only by confirmation not only \_ new information take going new of the statement is a prelude .

- Pink refuge! - said the hudaychi, - the traitor is willing to come and surrender to your justice!
- Who is your betrayer?
- Mirza Anwar!

Khan (o) shuddered He left , and everyone went along they were \_

- Bring it!

Hudaychi obeyed and turned back. Anwar in the corridor, to the surprise of the vision in the first room, stopped at the threshold of the second chamber, among the executioners, and bowed to the khan.

Khudoyorin's eyelashes fluttered, his beard hairs shook, and he stared as if he couldn't find a word.

- You to us betrayal you did it, dog uvli !

Anwar nodded . \_

- I confess .
- System you forgot '!
- I don't hesitate .
- If you confess , don't be ashamed , die the work ! he said in the drugstore by doing khan , - you will not hesitate to die !
- I from you thank you ask \_ came "I'm not ," he said smiling Anwar . - myself \_ to death giving one \_ sinless rescue for I came

Everyone lips they bit Lord sarcasm laughed .

Muslimism Are you angry ?

- **"Of course ,"** he said Anvar , others person sin for sinless catch from Christianity When I came out , I was angry to die from i knew

This is the answer God crimson color put it in the manglai sweats was seen , anger grass flame took \_

- Yours did work in the Muslim world Do you have a dog ?
- In Islam hundreds wife on top of one poor wants to get married has been red excellence to do Is there a qibla ? world \_
- Get out this , executioner !

Anwar shook his head laughed .

(Abdullah Qadiri . " From Mehrab . " scorpion ")

Above from examples apparently \_ as the discussion in his speech applied of words morphological feature quite a lot free \_ So we are in discussion independent the word from categories noun , pronoun , number, verb such as from words wide and free we used Not only that independent , perhaps helper more fruitful than words was used . Of these inside the most active modal words are used . Summary by doing so to speak discussion in his speech of words morphological features from the word that he is very rich free use possible that in our work seeing we went out
